Pushing Limits with Innovation

# WE MANUFACTURE COMPONENTS WITH THE MOST EFFICIENT MACHINING TECHNOLOGY AVAILABLE AND COMBINED WITH INNOVATIVE PROGRAMMING ENSURES RIMORE PRECISION ENGINEERING HAS THE CLASS LEADING CAPABILITIES TO PROVIDE THE MOST **COST EFFECTIVE** COMPETITIVE EDGE TO OUR CUSTOMERS

Rimore Precision Engineering was established in March 2016. We specialise in the Manufacture and Assembly of Precision Machined Components. We service a wide range of sectors including [Medical](#), [Aerospace](#), [Electronics](#), [Mining](#) and [Motorsport](#).

We aim to develop a partnership approach with our customers to form long term strategic relationships.

We offer a range of Low to Medium Volume Milling and Turning Services.

Rimore Precision can facilitate a wide variety of Finishing Requirements such as Heat Treatment and Electroplating through our preferred sub contract partners.

With many years experience in the field, we at Rimore Precision Engineering aim to provide a world class service to all our customers.

We are a dynamic & forward thinking company.

- ✓ We offer CNC:
  - Milling
  - Turning
  - Grinding
  - Wire EDM
  - Spark Erosion
- ✓ We have the knowledge to meet our customers immediate and diverse requirements using the latest manufacturing technology.
- ✓ We manufacture from:
  - All steels
  - Stainless Steels
  - Aluminium
  - Plastics
  - Exotic materials
  - Brass
  - Copper

## **STATE OF THE ART TECHNOLOGY & MACHINERY**

We have the ability to manufacture extremely complicated components and assemblies utilising state of the art technology and machinery.

## **CUSTOMER REQUIREMENTS**

We have the ability to allocate and schedule production to expedite urgent requirements to meet our customers needs.

Our aim is to provide advanced engineering solutions to industry and to be at the forefront of tooling services. We are committed to ensuring our customers receive quality service and expert knowledge. We also specialise in One-Off Prototyping and Sampling for R&D Purposes.

Whether you're a start-up company, involved in product development and prototyping or you're an established global manufacturing company, we at Rimore Precision Engineering will provide you with an experienced engineering support environment that's reliable, flexible, resourceful and can deliver quality product and services on time and within budget.

## Rimore Precision Engineering is committed to long term growth through continuous improvement and building strong relationships with its customers by providing a highly efficient service
